PC not discovered on Network Scan on Android
2019/08/05

Hello! I want to use the Riftcat app and for that I need my Android and PC to connect to each other through wireless. When I use the Removed app on my Android (SM-G935F with Android Oreo) my PC doesn't show up, just my 2 phones and the router for the other half of the house. The Network on my PC is public and I have run a command in cmd to turn on Discovery of the PC. I also have to mention that I am forced to run Windows 10 Version 1703 because updating to any newer version makes my audio not to work anymore. If anybody is kind enough to wish to help I'll fill in more details that you may need. Thanks!
